Basic Rules

BASIC RULES

OVERVIEW:

This section contains all the necessary information for you to function in Site-Jacoby.

Includes:

- COMMON SENSE REGULATIONS
 - WHAT THESE REGULATIONS INCLUDE
-

0.1

Always abide by Roblox's Terms of Use, and Roblox's Community Standards. Since we run on Roblox, we must always follow these standards. If you are caught breaking these standards, you will be punished severely if you break these standards. You may find them linked below.

[Roblox Terms of Use](#) [Roblox Community Standards](#)

0.2

We also run on SCP:RP, so you must follow their rules as well. If you are caught breaking these rules you will likely be punished by Site - Jacoby moderation, and SCP:RP moderation depending on the severity. The SCP:RP rules will be linked below.

I need them

0.3

You are not allowed to be rude or disrespectful to other members of the site. We are a

welcoming community for everyone, and being disrespectful in game is not what we like to see. If you are caught harassing other members in game, or harassing staff, you will be punished accordingly.

0.4

NSFW (Not Safe for Work) content is not tolerated at Site - Jacoby at all. NSFW content inside of this site ruins the gameplay experience for everyone. It brings in a type of content that nobody wants to see at all. Roblox is also a kids game, and seeing NSFW content is not what we want our young players on Site - Jacoby to see. This may end up being life changing for them if they are exposed to these types of content. This type of content will, generally speaking, ruin things for some people. Recreating any type of sexual actions, bypassing the filter, or just general NSFW content will result in an immediate blacklist for the offender, and a likely report to SCP:RP moderation. NSFW content may include the following, but is not limited to,

- **Erotic Roleplay (ERP)**
 - Erotic Roleplay is the act of simulating sexual actions inside of the game. This may include things like robanging, for example. This may also include things like talking sexually to others, and bypassing words to imitate sexual talk, and other things.
- **Bypassing the Roblox chat filter**
 - Bypassing the filter to say things like slurs, swear words, inappropriate words, etc. This includes things like saying "fuck" or "shit" inside of the game with a bypass, and more serious things as well.
- **Bypassed Audios**
 - This includes using the radio to play audios that include swears, slurs, erotic words/sounds etc.
- **Robanging**
 - Robanging is the act of moving continuously back and forth behind a user, to imitate the sexual act of humping, and overall sexual movements.

0.5

Discrimination of anybody based on color, race, gender, sexual orientation, etc, is not

tolerated inside of Site - Jacoby. In Site - Jacoby we are an all inclusive community that does not discriminate for these types of things. If you are caught discriminating against anybody inside of Site - Jacoby, you will be punished accordingly depending on the severity of the remarks. This may include the following, but is not limited to,

- **Racist remarks based on someone based on their skin color, or race.**
- **Sexist remarks based on their gender.**
- **Rude remarks based off of sexual orientation, gender identity, and more**

0.6

Attempting to exploit any loopholes in the rules will result in punishment. If you find any loopholes, you are not allowed to abuse them no matter what.

0.7

Disrespect to anyone, including staff will NOT be tolerated and is punishable via warning, strike, or kick after multiple offenses.

0.8

Depicting the use of drugs, such as alcohol or tobacco, will be an immediate blacklist within the server.

0.9

You may not encourage, depict, or make fun of self harm at all. If you attempt to do this, you will immediately be blacklisted from the site.

0.10

Any punishment you receive within Jacoby depending on the offense will be sent to partnering sites.

Roleplay Rules

ROLEPLAY RULES

OVERVIEW:

This section contains all the necessary information for you to roleplay on Site-Jacoby.

Includes:

- Basic Roleplay Rules
-

1.1

You are not allowed to use announcements at all, unless you are a staff member that is permitted to use them (example: EvC), or you are a civil faction. Civil factions may use them for RP purposes to announce things like "X faction is now serving food at the cafeteria, come and enjoy some quality meals!". If this is abused, the privilege may be taken away at the discretion of faction staff.

1.2

You may not random kill anybody inside of the site, no matter what the reason. If you are caught RKing, you will be punished accordingly. Random killing may be classified as the following below, and then some.

- **Killing Class D's behind the line if they are not holding a gun/attempting to escape.**
- **Killing Foundation Personnel with canrk with no cause or reasoning to support the use of canrk in the given situation (E.x., Running around killing Faction members with canrk on, for the giggles.)**
- **Unauthorized CD's just to kill them.**

- **Killing without being threatened**

1.3

No matter the situation, you may not breach SCP's, or use the authorize tool to help CD's escape outside. The only time SCP's may breach is in a proper event. If you are caught attempting to breach SCP's, or helping CD's escape with the authorize tool, you will be punished.

1.4

While onsite, you are not permitted to use any sorts of glitches to your advantage at all. Glitching will generally ruin the experience for most, and is frowned upon here. If you are caught glitching in any way, you will likely be met with a kick or ban depending on the severity. This includes things like the following, but is not limited to,

- **Emote Glitching** *[we do allow custom emotes, so do not ruin it for everyone :)]*
- **Respawn Glitching**

1.5

You may not purchase any paid events at all. This will generally result in a blacklist from the site entirely if you purchase one of these events, except for boombox parties. These events may include the following.

- **Paid Nukes**
- **Paid Riots**

1.6

You may not exploit in any way shape or form inside of Site - Jacoby. Exploiting is something that ruins the game for every single player involved. It ruins the fair, and fun gameplay we want for all of our members inside of Site - Jacoby. Exploiting is not a minimal offense, and it will result in very severe punishment. If you exploit on site, you will be met with a blacklist, and you will be reported to SCP:RP moderation.

1.7

A user may not continuously riot with a gun. If they random riot while armed, there is a 5

minute cooldown between each life. If you attempt to escape without a gun, you will have no cooldown enforced on you.

1.8

If you attempt to evade punishment in any sort of way [LTAP], you will be punished for the original offense, and punished further for attempting to evade it. This will include the following below and more,

- **Resetting in detain while getting punished**
- **Leaving to avoid punishment**
- **Using alt accounts to ban evade**
- **Using moderation perms to evade also will result in a removal of staff privileges**

1.9

Miniguns are not allowed at all, unless you are a juggernaut for an event. You are also not allowed to use the fostech, golden hawk, or faketechn under any circumstances.

1.10

If you are caught spawn camping within the vents or destroyables, or team spawns, and refusing to leave, moderation staff will take action to either detain or bring you out with a warning. Do it twice and it'll be a kick. Doing it frequently will result in a ban and a possible blacklist if done through multiple SSU's. (This also includes camping within the vents or destroyables for a long period of time.)

1.11

You may not use the boombox to play any loud, obnoxious, or annoying audios. If you attempt to do this, you will be warned, and your boombox will be taken away if it continues.

1.12

CDs are not permitted to climb on the wall within the CDC. If you are caught camping up there for a long period of time, or even random rioting from above frequently, will result in a warning, or a possible kick. Repeating the same offense will be a ban.

1.13

Use common sense. Even if a rule is not listed, that does not mean it is okay to do certain

actions. Think out your actions before you do them if they are risky, and may get you in trouble.

Discord Rules

DISCORD RULES

OVERVIEW:

This section contains all the necessary information for you to engage in the Site-Jacoby discord server.

Includes:

- Discord Rules
-

1.1

The discussion of politics, religion, conflict, tragedy, and other similar topics, both historical and current, isn't tolerated here. This isn't the type of server to discuss such topics.

1.2

The sharing of imagery or other content containing offensive symbols and imagery isn't welcome here.

1.3

Do not put the weight of your personal struggles on others, perhaps talk to someone trustworthy of you to speak too. Venting should be done privately with someone you trust, not with random people on a Discord server. Using / attempting to use your personal struggles to guilt trip/manipulate members within this server is not tolerated. If you are struggling, we encourage you to seek proper help.

1.4

Spam is defined as content that is unsolicited and in bulk. This includes, but is not limited to:

send the same or similar messages in any chat within a 4 min time frame, word-walls unrelated to an ongoing conversation, copy-pastas, type art and suspicious / harmful files or links. This can result, depending on the situation, a 24 hour mute. If you continue, we will have to use extreme measures and possibly ban you. Although this is appeal-able, you may have to provide a good reason as to why.

However, spam is not defined as broken sentences (sending half of a sentence in one message and the other in another) if it becomes obnoxious and obsessive though it will be considered spam (6-9+ messages for one sentence.) and for emojis, images etc. Sending repeated content 4+ times in a short amount of time or in a row. Is considered spam.

1.5

Advertisement is not allowed. Unless specified by a specific channel, given the appropriate role or given explicit permission, you may not advertise any form of media.

1.6

Impersonating other members is not allowed. This emphasizes staff members.

Impersonation includes changing your discord username and/or tag to match another user.

1.7

Raids are not tolerated. Hosting or joining raids against this server or an important member within this server will be an instant ban without appeal. However, if you were banned accidentally, then please do send an appeal request.

1.8

Do not ping HCs or Mods for no reason, there should be a reason as to why you ping them always. Pinging them for false intentions will not be tolerated and expect to be punished accordingly.

1.9

The Staff High Command reserves the right to take appropriate preventive measures against any individual deemed a potential risk to server security, operational efficiency, or the overall well-being of the community. Such measures may apply in cases of disruptive behavior, interference with operations, or the creation of internal reports that could negatively impact the community.

1.10

Making edgy/offensive jokes is forbidden, there's too much risk that you'll say something to offend the wrong person and we're not willing to take the risk.
